

C. Coaching

COACHING

Refers to coaches that have either beginner, intermediate or advanced level qualifications. Each coach must be marked as either active (coached or participated in coach education in the past 12 months) or non-active (have a qualification but did not coach or sit a coach education course in the past 12 months).

Please list each coach by name, providing details of the club they are from, the date they received their qualification (e.g. date when they sat coach education course) chronologically from start date, region details, the name of the instructor of their course; and whether they are active or non-active (based on the above-mentioned definition).

We have started the list based on previous advice – please add to this or make alterations based on whether coaches have gone from beginner to intermediate in the past 12 months for example.

13/ Accredited Coaches

- (i) Please list the names of all **Beginner Level Coaches** (Graduates of Level 0, Teachers Training etc) in your country, marking as either active or non-active.
